0.1 Usage and interface

- **Library usage:**
`:- use_module(/home/varo/UPM/3ero/ProDec/Pr_1/code.pl).`
- **Exports:**
 - *Predicates:*
`author_data/4, color/1, rule/5, cells/3, evol/3, steps/2, ruleset/2.`

0.2 Documentation on exports

author_data/4: No further documentation available for this predicate.	PREDICATE
color/1: No further documentation available for this predicate.	PREDICATE
rule/5: No further documentation available for this predicate.	PREDICATE
cells/3: No further documentation available for this predicate.	PREDICATE
evol/3: No further documentation available for this predicate.	PREDICATE
steps/2: No further documentation available for this predicate.	PREDICATE
ruleset/2: No further documentation available for this predicate.	PREDICATE

0.3 Documentation on imports

This module has the following direct dependencies:

- *Application modules:*
`unittest.`
- *Internal (engine) modules:*
`term_basic, arithmetic, atomic_basic, basiccontrol, exceptions, term_compare, term_typing, debugger_support, basic_props.`
